

DBS INSTANT TICKET UPGRADES

Your grain could be upgraded automatically, on-the-spot.

GrainFlow

GET A FAIR GRADE FOR YOUR GRAIN

Big grower or small, everyone deserves a fair go. That's why we automatically test and measure every load that comes through our GrainFlow storage sites. If your grain is eligible for an upgrade, we'll let you know straight away.

KNOW YOUR GRADE INSTANTLY

We believe growers should get paid for the quality they produce. That's why we let you know what your grain is worth right away. As soon as your load is tested, you can sell your upgraded ticket immediately or store your grain with us to sell later.

NO WAITING, NO APPLICATIONS, NO HASSLE

We're not about wasting time. We'll put through your upgrade for you, so you don't have to deal with any phone calls, emails or application forms. You've worked hard this harvest. Let GrainFlow make storing and grading your grain easy.

HOW DBS WORKS

1

Visit your local GrainFlow. We test every load that comes into our storage site

2

DBS assesses your grain's moisture, protein and test weight in wheat & barley against the last 250t received

3

If the stack average is trending well, and you have a marginal load, your ticket will be upgraded automatically

\$

4

Sell your upgraded ticket now, or let GrainFlow warehouse your grain for later sale
